RECTOR'S APPEAL

Dear friends! Kemerovo State University is ready to offer you the educational programs in the most perspective directions. The key one is Medicine and in this connection the University cooperates with the leading medical organizations of Kuzbass where you can get the internship. Besides, KemSU provides all necessary conditions for comfortable learning and safe accommodation for students. I wish you to make the right choice and enter Kemerovo State University!

We are looking forward to seeing you in Siberia!

ALEXANDER YU. PROSEKOV

Corresponding Member of the Russian Academy of Sciences, Doctor of Engineering, Rector of KemSU

KEMSU TODAY

20’000 students are studying in medical, engineering, economic, pedagogical and social-humanities educational programs

1’000 international students from more than 15 countries: India, China, Syria, Sudan, etc.

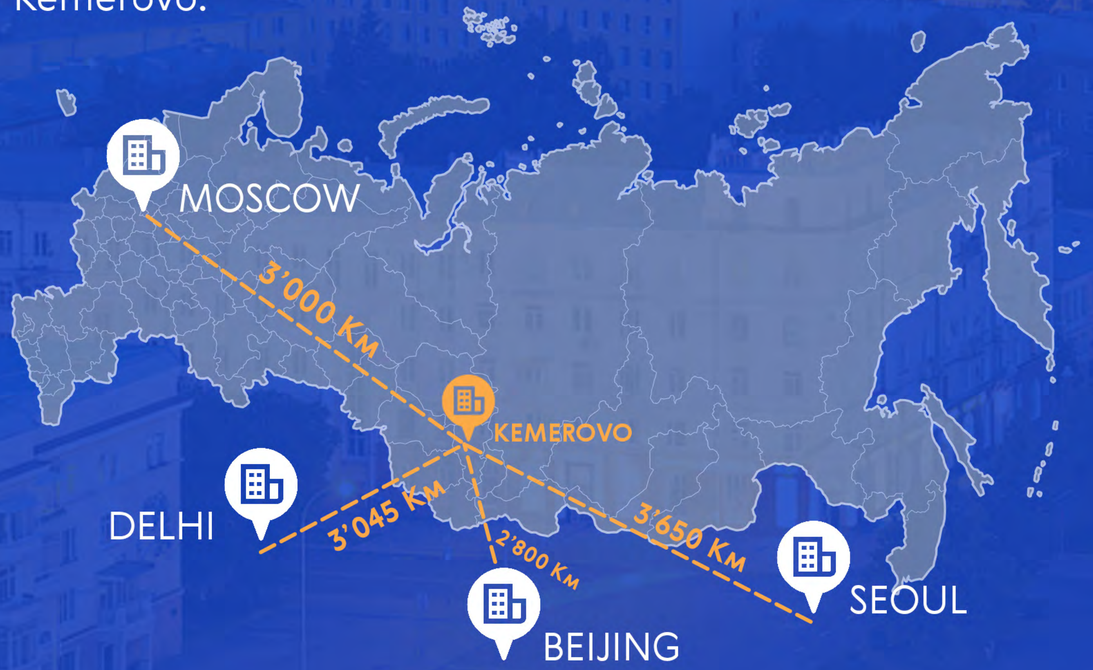

60 different associations for students' development and self-realization

LOCATION

The University is located in the heart of Siberia, in Kuzbass. Kemerovo is the capital of Kemerovo region. The main cultural, sports and educational facilities of the region are situated here. All facilities are near the University within walking distance.

The main campus of KemSU is located in the center of Kemerovo.

MEDICINE

MEDICAL INSTITUTE

The Medical Institute was set up in January 2022.
The Head of it is Vadim Mozes, MD, Professor

We offer the educational program in **“Medicine”**.
Our Medical Institute will allow you to get a high-quality medical education

The best practitioners of Kuzbass will teach you.
The language of teaching is English.
The duration of study is **6 years**

KUZBASS REGIONAL CLINICAL HOSPITAL NAMED AFTER S.V. BELYAEV IS THE MAIN PARTNER OF KEMSU

The hospital is the largest multidisciplinary medical organization in the region. **64 therapeutic and diagnostic departments** are functioning there. Also there is a perinatal center, an ophthalmology clinic and the largest laboratory service;

The hospital is the absolute leader in kidney and cornea **transplantology** among the Siberian Federal District. The specialists use advanced technologies in anesthesiology, neurosurgery, surgery, oncohematology;

Every year **27,000 surgical interventions** are carried out in all fields of medicine;

Practical training of students is conducted on the basis of this medical institution

CAMPUS SAFETY

KemSU ensures comfortable conditions for learning, accommodation and socialization of students. Separate comfortable rooms in student residences are provided for international students.

Moreover special attention is given to safety. Also the tutors are available to help you solve your problems

In your free time you can visit the Botanic Garden, Planetarium and swimming pool
